

HEALING NOT KILLING

Hiroshima - Nagasaki

75 year commemoration

International Fast and Days of Action

A moral outrage: the 14,000+ nuclear weapons held by just 9 countries represent several hundred thousand times the destructive capacity which obliterated Hiroshima and Nagasaki in 1945.

A financial catastrophe: replacement of Britain's Trident nuclear weapons system will cost over £205 billion of public money, at a time when our NHS desperately needs funding.

Join us and hundreds of protestors around the world in Fasting and Days of Action to commemorate the tragedy of the nuclear bombings of Japan. We are calling for the abolition of Trident and investment in health care, and in the fight against Climate Change instead.

Fast, and Days of Action and Protest from the 6th to the 9th of August across Britain: London, Bristol, Iona, Knighton, Edinburgh, Plymouth, Oxford, Barnstaple, and others to follow. Fasting is optional.
